

## RTAC Coordinators Teleconference Notes

Thursday, September 9, 2010

Coordinators in attendance: Greg Breen, Dan Diamon, Bob Nack, Dan Williams, Dave Taylor, Michael Fraley

Others in Attendance: Connie Rigdon

1. Purpose of teleconference: discuss Connie's departure and review status of various projects/ issues
2. An official transition plan including possible interim coverage of Connie's role and the EMS-C coordinator position will be expected out from DHS next week.
3. Connie has been training a person to help cover end-used support of the trauma registry. She will forward the contact information to us.
4. The State recently released a memo stating that they will continue to support the STAC membership guidelines developed by the office in 2002. The document was sent out to RTAC Coords and STAC members and is available on the State website. Group discussed upcoming STAC member transitions and needs.
5. The hospital classification issue has not been resolved yet and Connie is not able to suggest which solution will be selected or when
6. Finance
  - a. All RTAC contracts are in place or are on track.
  - b. Bridget will still be working with the Trauma program-related accounting. She will try to come to the next State meeting to speak with us.
  - c. Connie suggested that the RTACs have a plan in place to spend another end-of-year contract amendment sum of around \$6,000.
7. Connie reminded the group that the trauma program is not actually Dennis any longer. He is an advocate of the trauma program and needs our help to accomplish some of his objectives but he is not responsible for the trauma program nor is he necessarily in a position to "make things happen."
8. The EMS-C Coordinator position has been reposted at a higher salary.

Respectfully submitted,  
Michael Fraley
